Ian Johnson

2925 Rensselaer Court, Vienna, VA 22181 (703) 819–8495 IanTimothyJohnson@gmail.com

Summary

I am a quick and versatile learner, adaptable to a variety of challenging situations and tasks. I have a strong background in mathematics, as well as experience in computer programming.

Education

University of Virginia

Overall G.P.A.: 3.96

May 2017

B.A. in Mathematics (advanced track) and Physics

- Awards and designations
 - Echols Scholar
 - Edwin E. Floyd Prize in Mathematics (2017)
 - Intermediate Honors (2016)
 - Dean's List (Spring 2015, Spring 2016, Fall 2016)

Experience

Volunteer Tutor
FACETS
September 2017–Present
Centreville, VA

Teach a variety of computer-related skills to adults.

- Assist with children's homework and after-school activities.
- Provide proactive technical support to community center.

Undergraduate Physics Researcher

April 2015-September 2017

UVa Solid Polarized Target Group

Charlottesville, VA

- Develop simulations and mathematical models from systems of differential equations and real data.
- Design and implement software to assist in lab tasks.

Undergraduate Mathematics Researcher

May 2016-July 2017

University of Virginia

Charlottesville, VA

- Apply individual study of new material to research efforts.
- Collaborate with research adviser to investigate novel concepts.

Vice President & Secretary

May 2015-May 2017

Charlottesville, VA

Kinetic Sound

Co-founded successful student organization.

- Coordinate logistics of large-scale events with over one hundred attendees.
- Participate in and contribute to weekly planning meetings.

Skills

Computer proficiency

- Experienced with Windows and GNU/Linux systems (day-to-day usage and basic administration)
- Proficient in Microsoft Office (Word, Powerpoint, Excel) and equivalent products

Programming

- Languages: C, Rust, LabVIEW, C++
- Also have experience with HTML and CSS
- GitHub: https://github.com/ianprime0509
- Familiar with common development tools, including Git
- Selection of projects:

- A controller for a stepper motor, written in LabVIEW (https://github.com/ptgroup/stepper-motor-controller)
- A Chip-8 emulator, written in C (https://github.com/ianprime0509/chip8)

Publications and presentations

- Spin nilHecke algebras of classical type (https://arxiv.org/abs/1706.06240)
- Chain Posets (https://arxiv.org/abs/1802.05813)
- Automated Microwave Frequency Control in Dynamic Nuclear Polarization Experiments (http://meetings.aps.org/link/BAPS.2016.APR.K10.2)
